LLANO POLICE DEPARTMENT has adopted a detailed written policy on racial profiling. Our policy:

- 1) clearly defines acts constituting racial profiling;
- 2) strictly prohibits peace officers employed by the LLANO POLICE DEPARTMENT from engaging in racial profiling;
- 3) implements a process by which an individual may file a complaint with the LLANO POLICE DEPARTMENT if the individual believes that a peace officer employed by the LLANO POLICE DEPARTMENT has engaged in racial profiling with respect to the individual;
- 4) provides public education relating to the agency's complaint process;
- 5) requires appropriate corrective action to be taken against a peace officer employed by the LLANO POLICE DEPARTMENT who, after an investigation, is shown to have engaged in racial profiling in violation of the LLANO POLICE DEPARTMENT
- 6) requires collection of information relating to motor vehicle stops in which a citation is issued and to arrests made as a result of those stops, including information relating to:
 - a. the race or ethnicity of the individual detained;
 - b. whether a search was conducted and, if so, whether the individual detained consented to the search;

c. whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual;

d. whether the peace officer used physical force that resulted in bodily injury during the stop;

e. the location of the stop;

f. the reason for the stop.

7) requires the chief administrator of the agency, regardless of whether the administrator is elected, employed, or appointed, to submit an annual report of the information collected under Subdivision (6) to:

a. the Commission on Law Enforcement; and

b. the governing body of each county or municipality served by the agency, if the agency is an agency of a county, municipality, or other political subdivision of the state.

The LLANO POLICE DEPARTMENT has satisfied the statutory data audit requirements as prescribed in Article 2, 133(c), Code of Criminal Procedure during the reporting period.

CITY COUNCIL AGENDA

2/17/26

Agenda Item: E1

Item/Subject: Approval of Resolution R-2026-10 regarding the sale of surplus city assets.

Initiating Department/Presenter: Kim Wagner, City Secretary

Recommended Motion: Motion to approve Resolution R-2026-10.

Background/History: PROCEDURE FOR DISPOSAL OF SURPLUS PROPERTY

All Departments must review their assets and supplies each year and determine whether any items are no longer needed. A Department must submit a list of any surplus, obsolete, or unused supplies, materials, or equipment to the Finance Department and include a description, make, model, and serial number. The Finance Department, in coordination with a Department, may transfer items between Departments based upon needs. Where equipment or durable goods are deemed to be surplus, obsolete, or unused, the Department will present the list to City Council for approval to dispose of such equipment or durable goods. (*See*-Tex. Loc. Gov't Code, Ch. 51.) The Department may attempt to sell surplus, obsolete, or unused supplies, materials, or equipment in a manner that attempts to secure a fair market value price for the city or donate such items to a local nonprofit organization. Funds received from the sale of surplus items will be returned to the appropriate City fund.

CITY COUNCIL AGENDA

3/17/26 Agenda
Item: E2

Item/Subject: Discussion and consider the approval of the 2026 Llano City Council work plan.
Initiating Department/Presenter: Finley deGraffenried, City Manager

Recommended Motion: Motion to approve, or approve with modification, the 2026 City of Llano, City Council Work Plan

Background/History: Council began an internal planning process in November of 2025 to provide focus for shorter term needs and priorities. The process included a satisfaction survey of City departments and services, and a tour of City facilities. The Plan identified 8 planning themes and 83 action steps. Council is asked to consider adopting the Plan as written, or as amended at the meeting.

Financial Implications: The Plan does not have impact on the Budget, however; certain activities may have undetermined impact on the Budget. Approval of the Plan does not imply approval for expense of items within the Plan.

City of Llano, Texas

City Council Work Plan 2026

17 February 2026

The City of Llano Council Work Plan was drafted over three meetings from November 10, 2025 to January 20, 2026, and was kicked off with a Council Satisfaction Survey and tour of City facilities. The Plan is intended to be a working document subject to amendment and modification based on Council direction and should be reviewed periodically for progress. The Plan acknowledges Council's need to provide agreed direction to meet the goals for the City and our citizens. Staff and Council turn-over has been cited as one of the compelling reasons to provide focus and direction for current and future City leadership. In the Planning Process, Council indicated the following areas of importance:

Planning Planning provides needed direction to create vision, mission and culture. For Llano, planning represents the transition from being reactionary to being forward thinking. The City's goal for grass roots planning is inclusiveness, transparency and continuity. Council also understands the by-products of planning include leadership development, community trust and validation of the City's direction. Areas of Planning include Capital Improvement, Water Infrastructure and Capacity, Vision and Mission, staff retention, Park services, and Airport.

Public Communication and Public Engagement Action Steps for communication and engagement address Council's desire to be more transparent, more consistent, and more proactive. Council's Plan includes building expectations with residents on communication for public works projects, disruptions in service, and City operations. The City will also provide consistent communication and interpretation across various platforms including websites, signage, policy, and ordinances. Duties for communication and website updates will be assigned to appropriate staff.

Capacity Building Capacity Building is the strategy of increasing community involvement, improving internal and external communication, and creating synergy. Council identified actions to strengthen City Boards and Committees, develop stakeholder groups, meet with other entities, and to formalize emergency management procedures.

Customer Service The City will communicate with our residents and customers clearly, completely, and with empathy. Staff will be responsive to customer requests and concerns and prepare written accounts of requests and dispositions. City staff will be prepared to meet in person with interested

parties to confer on business and commercial development, residential development, and utility capacity and extensions. The City will review permitting and inspection processes and flow to minimize response time.

Finance

Staff will provide data to Council regarding financial performance for decision making and perspective. Goals include policy review and revision, budgeting targets and timelines, and identification of opportunities to reduce short-term debt.

Personnel

City staff will be well trained and technically competent. Some actions will be universal, for all personnel, including training and improvement plans, compensation for certifications, and recognition of additional responsibilities. The Salary Administration Plan will be reviewed and Job grades will be evaluated to ensure fair and consistent compensation. Goals include improving the recruitment and retention of the City's workforce.

Image and Pride

The City, (personnel, property, and leadership) should set the example of good stewardship. City facilities should be well maintained, organized and clean. The City will also take a complete and comprehensive approach to sub-standard and dangerous building abatement and code enforcement. The City will transition from complaint-based enforcement to proactive enforcement with the goal of voluntary compliance. Staff will periodically hold stand-down days for attention to City and/or community improvements.

Governance

City leadership will address inconsistencies with approved policy/ordinances and implementation and application of policies in the field. Council will include stakeholders in discussions if appropriate before modifying or enforcing policy. Policies and Ordinances related to the Cemetery, Robinson Park RV and facility reservations will be addressed initially.

CITY COUNCIL AGENDA

3/17/26 Agenda
Item: E3

Item/Subject: Discussion and possible action to create best practice policy for project management.

Initiating Department/Presenter: Finley deGraffenried, City Manager

Recommended Motion: Discussion only, *or at Council's option*, Motion to direct staff to research additional practices and formalize a Policy Resolution for future Council consideration.

Background/History: After recent street arbitration and considering other major public work projects, the Mayor and Mayor Pro-Tem asked for Council discussion on best practices for project management. Attached is a MEMO with a non-inclusive listing of practices. Council is asked to review, comment and suggest additions to the listing. Staff seeks Council direction for further investigation and Council has the option to memorialize practices into Policy.

Financial Implications: no financial impact.

Re: Agenda Item G3, Discussion regarding best practices for project management
Date: 12 February 2026

After review of the Cox Paving arbitration and recent public work projects, the Mayor and Mayor Pro-Tem requested a review of best practices for project management. Staff has prepared a non-inclusive list of topics to review with Council, and will seek other resources at Council direction. Council may desire to memorialize topics in policy.

In no particular order, for discussion purposes only:

- | | |
|--------------|---|
| Procurement | Follow statutory and local procurement requirements and policies. Procure statutory professional services by qualifications through a Request for Qualifications with a clear scope of work. Engage qualified design professionals as statutorily required based on the scope and value of the project. Occasionally, seek qualifications for other design professionals. |
| Project File | For larger projects, maintain a Project Folder to include Insurance certifications, surety documents, correspondence (Notice to Proceed, Requests for Information, close-out certification), contract documents and addenda, daily reports of observations, and project schedule. Include a checklist of contractually required items. |
| Oversight | In addition to technical, professional oversight (architect, engineer), staff shall be assigned for daily oversight and shall keep a written log of observations including the number of contractor's employees on site, weather conditions, work being conducted, discussions or requests related to the project, follow-up needed or required, and progress photos. |
| Pay Requests | Verify all pay requests before City sign-off even if the engineer/architect has approved the request. |
| Assistance | Do not offer to assist or help the contractor outside of the scope of work or contract. Do not commit to or offer staff to perform any part of the contractor's scope. City participation within the contractor's scope could jeopardize warranty. |

Surety	Phone verify all bonding documents. In addition to protecting the City's interest in the project, the City has an obligation to protect the surety's interest.
References	In addition to the Engineer's or Architect's award recommendation, require the design professional to contact previous jobs and references. If a project does not require engineering or architecture professionals, staff should contact previous jobs and references.
Code Compliance	Follow all building codes and zoning regulations. Require permitting, however; the City may elect to waive all permit fees. Follow all regulatory requirements.
Submittals	As specified or noted, require submittals for bonding, insurance, materials, scheduling, alternatives and personnel qualifications. Unless waived by the design professional to a later date, require all submittals prior to issuance of the Notice to Proceed. Material and alternative submittals shall be approved by the design professional and City prior to acceptance.
Geo-Tech	For City projects requiring flat work or foundation, the City shall procure a geotechnical investigation at the City's expense.
Project Scope	Larger projects have more exposure and require greater level of risk management. Consideration should be given to greater commitment to oversight including third party inspections, control and switchgear certification, penalties and delays, and testing and validation.
Plan Review	For City projects, the City should conduct a thorough in-house plan review regardless of the design professional. On larger projects, consideration should be given to a third-party review of project plans. Maintain all as-builts as a requirement of the contract.
Typicals	Prepare and approve accepted City of Llano Standards and Specifications including standard contract documents for City infrastructure, roadway and pavement, street layout, curbing and gutter, drainage, driveway cuts, sidewalks, parking, signage, environmental, hydrants, etc.

Re: Manager's Report
Date: 13 February 2026

Landon Ln. GST Following inspection of coating at the Landon Lane Ground Storage Tank ("GST") on February 6th, BRI, the City's third-party inspector, reviewed welding preparation for the door on February 10th. After consultation with the City's engineer and inspector, the City emailed consent to proceed at that time. Door fitting was done on February 10th and welding commenced on February 11th. Maguire's revised schedule (attached) places the tank back in service on or about March 4th.

Airport The Airport Layout Plan ("ALP"), Requests for Proposal ("RFP") were scored by the Llano selection committee on February 5th and tallies were submitted to TxDOT on February 9th. The highest ranked firm was KSA Engineering, who will negotiate the fee and be contracted by TxDOT. The city will provide input regarding the scope and recruit stakeholders to provide input through the process. An ALP includes future needs, growth projections and a capital plan, and acts like a Comprehensive Plan for airports. Initial projections from KSA call for the planning phase to take 40-48 weeks. Staff also reports that two candidates will be interviewed for the position of Airport Manager on February 19th.

Dredging The City Attorney has prepared a draft Maintenance Agreement for Town Lake and Robinson Lake related to dredging. The draft has been provided to the contractor for review and comment, however; the City has also requested a meeting to review the means and methods of the dredging to limit any impact on our water supply. The use of water has been identified as a possible regulatory issue that will also need to be resolved prior to consideration. Providing there are no major edits, Council may be asked to consider the Agreement in March.

Pool

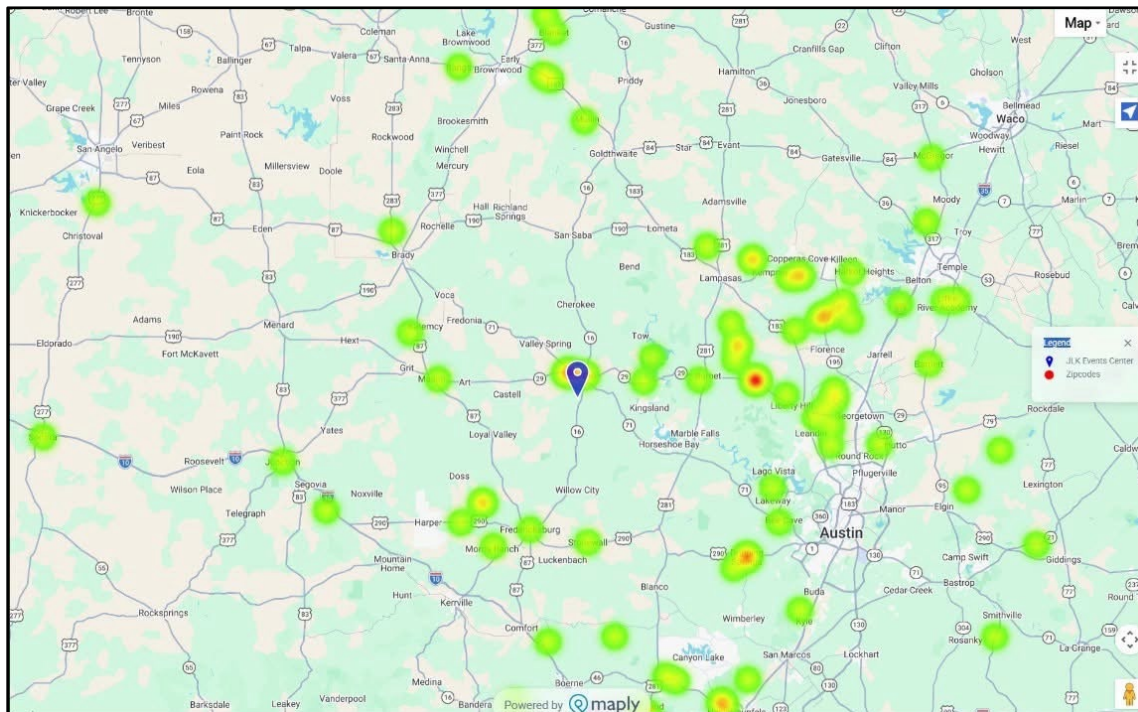

An engineer and code specialist from Landmark Pools inspected the Robinson Park Swimming Pool on February 12th. The scope of his inspection included mechanical systems, filtration, tub assessment and compliance with State codes. The final report is projected to be complete in three weeks and will include needed repairs and upgrades to bring the Pool into compliance.

Water

Staff have communicated Council’s decision on the Firm Water Contract and the Drought and Conservation Plans to the LCRA, Plan contractors, and our counsel on the matter. The communication indicated that water remains a critical issue for the City and Council may elect a modified path moving forward. Staff also encouraged keeping open lines of communication if needs arise. Staff seeks Council input on any additional stakeholder input on water, water planning or project scoping.

JLK

One of the JLK producers, after a successful and well attended event, provided Britney a heat map of competitor’s hometowns. It reinforces the importance of the JLK as a regional draw and the positive economic impact on Llano. As previously reported, bookings and reservations are up.

Top Ten As you may have seen from one of Tony's posts, or as shared by others, Llano was awarded a Top 10 for being one of best Outdoor Towns in Texas by Texas Parks and Wildlife Magazine. Writers noted Llano's designation as Deer Capital of Texas, and the many outdoor amenities including the River, parks and downtown attractions. Local businesses were also highlighted including Joe's, the Lantex, Dabb's Hotel, Coopers and the Wild Weed.

LEDC The Llano Economic Development Corporation ("LEDC") met on February 9th with a fairly routine agenda. The Board reviewed finances and asked that a future agenda include consideration of making a final payment on LEDC debt, saving approximately \$7,000.00 in interest. The Board also reviewed the status of a recent prospect inquiry on site selection and State incentives. LEDC priorities and ways to support existing businesses will also be discussed at their next meeting.

City Hall Staff spent some time this past week reviewing possible improvements to the exterior stairway, upper porch, and sidewalks at City Hall. A recent accident brought attention to the need for improved lighting, consistent tread spacing and possible flat work at the base. Staff have reviewed possible improvements with a local contractor and will report to Council as progress is made.

Downtown Sidewalk Staff has previously reported on the status of design and advertising for the replacement of sidewalks on the west side of Ford Street from Main Street to Haynie. Staff learned this week that the required environmental clearance for the project only partially included the limit of construction. Staff was provided two options from the grant administrator, to either reduce the project and eliminate the south portion of the sidewalk, or to wait for the updated clearance that would take approximately 90 days. Staff felt the project would look literally half done, and opted to wait so the project would be, and appear to be, complete. Staff will contact the grant administrator if Council directs otherwise.

City Yard As evidenced by the agenda language to declare surplus items, progress is being made to clean-up the City Yard on Haynie Street. The Yard has been housing the Parks Department, however beginning this week, the Street Department began relocating to the Yard, and with the help of other departments commenced the clean-up. The Electric Department had previously cleaned out most of their inventory. Staff also believes the relocation of the Street Department will make them closer to their work.
